

Overview

This guide provides you, as the parent/guardian, with a step by step process of how to log in and view your child's class placement and report cards. The eSchool Data Parent Portal allows for instant online access to your child's report card more quickly and efficiently, eliminating the need for printing and mailing. The Parent Portal is completely secure and will only permit a parent/guardian to view the records of his/her own child once registered. The ability to access this information 7 days a week, 24 hours a day increases the family/school connection that is vital to the success of your child. No more missing report cards!
